SUMMARY

Third-year Computer Science student at FAST-NUCES with hands-on experience in full-stack web development (React, Next.js, Supabase) and AI-integrated applications. Demonstrated leadership as Technical Co-Head at Google Developer's Group, directing technical teams for large-scale events including Google's Arc Program 2026. Skilled in building production-ready SaaS tools, LLM integration, and cross-functional project management.

EDUCATION

National University of Computing and Emerging Sciences (FAST-NUCES) Faisalabad, PK

Bachelor of Sciences in Computer Science

Aug. 2023 – Present

- Relevant coursework: Data Structures & Algorithms, OOP, Database Systems, Operating Systems
- Instructed a 15-Day Web Development Bootcamp for peers (Aug. 2026)

EXPERIENCE

Technical Co-Head Aug. 2024 – Present

Google Developer's Group (GDG) – FAST-NUCES, CFD

Faisalabad, PK

- Lead technical and operational planning for GDG chapter events, coordinating teams of developers and designers
- Directed technical execution for Google's Arc Program 2026, managing event logistics and participant onboarding
- Mentored junior members in web technologies and developer tooling best practices

Best Organizer – AI Community Pakistan

Apr. 2025

Artificial Intelligence Community Pakistan

Pakistan

- Recognized for exceptional event organization and leadership contributions within the AI community
- Coordinated large-scale AI events managing hundreds of participants across the community

PROJECTS

CertifyFlow | *Next.js, Supabase, TailwindCSS, Node.js* Apr. 2025 – Present

- Built a SaaS platform for bulk certificate generation, distribution, and email-based verification
- Implemented BYOES (Bring Your Own Email Service) model enabling users to send unlimited emails via their own providers
- Deployed to production on Vercel; live at certifyflow-next.vercel.app

PeakPath AI | *Next.js, OpenAI APIs, Hugging Face LLMs, TailwindCSS* Feb. 2024 – Present

- Developed an AI-powered scholarship and research opportunity finder using web search APIs and LLMs
- Integrated academic profile matching to surface personalised funding recommendations for students
- Live at peak-pathai.vercel.app

Thinklytics | *Python, Streamlit, Pandas, Matplotlib* Apr. 2025 – Jun. 2025

- Created a comprehensive real estate data analysis and visualisation tool with interactive dashboards
- Enabled market trend analysis to help users make data-driven property investment decisions
- Live at thinklytics.streamlit.app

TECHNICAL SKILLS

Languages: Python, C++, C#, JavaScript, HTML/CSS, Assembly

Frameworks & Libraries: React.js, Next.js, FastAPI, TailwindCSS, Streamlit, .NET Windows Forms

Databases & Cloud: Supabase, Firebase, PostgreSQL, Vercel

AI & ML: OpenAI APIs, Hugging Face LLMs, Prompt Engineering

Developer Tools: Git, GitHub, VS Code, Node.js
